

LORENZ ROMEO O. TAGANAS

0947 607 3454
taganaslorenz81@gmail.com
3177 Jasmin St. Purok 3 Cofradia Malolos, Bulacan

OBJECTIVE

I am a passionate student developer with a foundation in UI/UX design and web development. My experience includes creating user-centric designs using tools like Figma and implementing them with the MERN stack. I also have a basic understanding of networking concepts, including how systems communicate and troubleshooting simple connectivity issues. I am eager to contribute my skills in both software development and networking while continuing to learn and grow in a dynamic team environment

EDUCATION

Bulacan State University (Main Campus)	2022-present
Bachelor of Science in Information and Communication Technology	
Major in Web and Mobile App Development	
Marcelo H. Del Pilar National High School (Junior-Senior)	2016-2022
City of Malolos Integrated School (Sto. Rosario)	2010-2016

SKILLS

HTML	Java	MySQL	UI/UX Design	Animation	Attention to detail
CSS	Javascript	MongoDB	Prototyping	Figma	Adaptability & Fast Learner
Tailwind	Python	GIT	Wireframing		Teamwork & Collaboration
React	PHP	Postman	Photoshop		Communication Skills

PROJECTS/EXPERIENCE

Arthub (Capstone Project) - Full Stack Developer QA Tester	Dec 2024 - Sep 2025
- Developed an e-commerce platform using the MERN stack for showcasing and selling artworks created by Fine Arts students at Bulacan State University, including database design and system flow. - Implemented secure user authentication with JWT and a multi-role dashboard for artists and admins. - Integrated PayMongo, Cloudinary, and Brevo APIs for payments, image storage, and notifications	
Jam Master (Mobile Application) - Backend Developer	May 2025
- Created a song-guessing game using Java and Android Studio. - Utilized Firebase for user authentication and to manage a real-time leaderboard - Added a favorites feature for users and integrated a music API for content.	
Salesforce Virtual Internship Program (2025) Trailhead Module Capstone Project	April-June 2025
Completed an 8-week virtual internship program on Salesforce Fundamentals, Data, and Security Modeling, gaining hands-on experience in low-code development by building applications and automations within the Salesforce platform.	

CERTIFICATIONS

- Salesforce Supported Virtual Internship Program 2025 - Philippines (April 2025)
- Cisco Network Academy Introduction to Cybersecurity (October 2025)
